

Cloud for MSPs & Service Providers

Deliver enterprise-grade cloud services under your own brand — with predictable pricing, superior support, and the compliance your clients demand.

Why ADMIX Cloud is Different

Purpose-built for MSPs and Service Providers

Unlimited Data Transfer

No hidden fees or overage charges.

US-Based Support

No language barriers, no shared outsourced teams.

Better Pricing

Improve your margins without sacrificing quality.

White-Label Ready

Offer cloud services as your own brand.

ITAR Compliant

Managed and supported exclusively by US citizens.

Tier 3 Data Centers

N+1 power and cooling for high availability.

No Metering

Flat-rate pricing, no charges for network or disk IO.

Lower Risk

Reduce exposure to competitor outages and lock-in.

Enterprise Performance

Platinum CPUs and high-speed NVMe LRS storage.

Free Workload Migration

We migrate your cloud workloads at no cost.

Smaller Target = Safer Clients

Less desirable in the eyes of hackers.

Built for MSPs & Service Providers

Purpose-built for MSPs and Service Providers — not end users.

Criteria	Hyperscalers	Other Competitors	ADMIX Cloud
Data Transfer Fees	Metered / egress fees	Varies / often metered	Unlimited (reasonable use)
Support	Ticket queues, offshore	Mixed / shared teams	US-based, MSP-aware
Pricing Model	Complex, usage-metered	Mixed	Flat, predictable
Compliance	DIY responsibility	Varies	ITAR, Tier 3 DC
Migration	DIY / paid	Sometimes free	Free workload migration
White-Label	Rare / limited	Some	Full white-label

Your Clients. Your Brand. Our Cloud.
